

W  
DEPUTIES' MEETING

25X1A9a

Monday, 17 December 1956

PRESENT: Mr. Dulles, General Cabell, Mr. Amory, Col. White,  
Messrs. Kirkpatrick, [redacted] Sheldon,  
Gen. [redacted]

Mr. Dulles:

25X1A6a

a) Referred to a cable from [redacted] containing 25X1A6a  
a report on the economic situation in [redacted] and after some  
discussion it was agreed that a sanitized round-up on this matter  
would be prepared by DD/I in coordination with DD/P for dis-  
cussion at the luncheon tomorrow the Director is giving for  
representatives of the Wall Street Journal.

b) Noted while in New York yesterday he had talked with  
[redacted] regarding the Soviet  
resolution to the U.N. calling for an investigation of the  
Russian charge that the U.S. had intervened in internal Hungarian  
affairs and incited the people to riot. The Director said the  
U.S. reply, that we would welcome such an investigation provided  
a U.N. team was allowed to go into Hungary to make it, was in his  
opinion an excellent opportunity to turn the tables on the Soviets.  
He commented probably there was nothing much that could be done  
about this until after Christmas. ACTION: DD/P

c) Referred to a report that Moscow University students  
are condemning the Soviet regime and asked whether we should not  
get out something on this. Mr. Sheldon commented that this  
affair had been reported in the CIB and he believed this is the  
best way to bring it and subsequent reports to the attention of  
those concerned.

25X1A9a

d) Stated that [redacted] had been in to see him  
on 14 December and had he known before hand the purpose of the  
visit he would have had [redacted] and some of his people present.  
The Director noted his intention of preparing a memorandum of  
conversation, however, [redacted] had made the following points:

Mr. Sheldon:

Mr. Amory:

Noted that he was attending a meeting tomorrow with the CFEP (Council on Foreign Economic Policy) to consider whether the U.S. should sell certain commodities to satellite countries at world prices, commenting that these countries do have dollars. The Director expressed the opinion that the U.S. should do this provided we could "pick our satellites".
